

## Photo Manipulation Challenges Evaluation

Name: \_\_\_\_\_

The Photo Manipulation Challenges you have completed were designed to challenge you as a digital artist in technical skill, problem-solving methods, and creative thinking. In this evaluation you will be assessed primarily on how you have grown as an artist and less so on technical quality of your pieces. The written reflection is important to tell me in your own words how you have developed these qualities. Use the following as a guide for the assessment.

#	0-5 Points	6-10 Points	11-15 Points	Score	
				S	T
1	Artist's ideas were common or copied. Artist found many challenges that were not overcome. Artist used known skills and did not advance or learn new techniques. Artist's response to challenges could have been more successful.	Artist created an image with some creative thought. Artist was mostly successful in technique and may have grown as a digital artist in the process. Artist found some challenges difficult and got stuck but was able to find solutions with assistance. Artist's response to the challenge was mostly successful.	Artist created a unique image using a creative and original idea. Artist stretched to try a new or advanced technique and grew as a digital artist in the process. Artist was not stuck on challenges but overcame them by having innovative solutions. Artist's response to the challenge was successful.
