

## Value Exploration Activities

Option 1: Create a 10 part Value Scale with Pen using either hatching, cross hatching, stippling, or a different kind of mark.

Option 2: Divide the paper into many sections. Choose a single color. Fill in each section with a different tone, tint, or shade of that color. Paint.

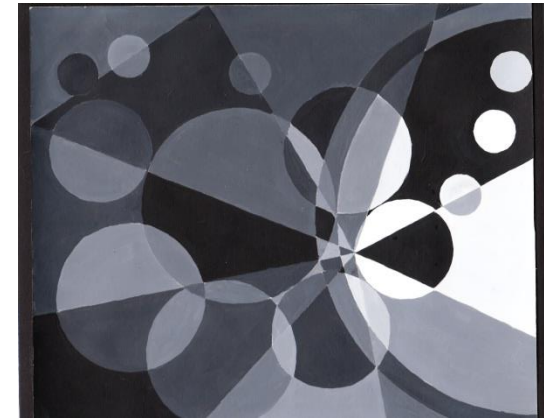

Option 3: Choose a single color and use collage to fill your paper with as many values of that color as possible (magazines would be best).

Option 4: Create a grayscale pencil realistic drawing using the full range of values

Option 5: Create a grayscale abstract piece showing at least 10 different shades of gray.

Option 6: Choose a single shape and repeat it inside itself. Fill each layer with a different value of a single color.
